SUMMARY

Final-semester Web Developer graduating from Fanshawe College, April 2026. Hands-on experience in front-end and full-stack web development with PHP, Laravel, Vue.js, JavaScript, HTML5, CSS3, and SQL. Comfortable across the full software development lifecycle — from UI/UX design and programming through to API integration, database management, and Git-based teamwork. Real client project experience. Eligible to work in Canada, commutable to London, ON.

SKILLS

EDUCATION

Fanshawe College Diploma — Interactive Media Design and Production Jan 2025 – Apr 2026

PROJECTS & EXPERIENCE

London Aviation Museum

- Developed the front end of a WW2 aviation history virtual museum using Vue.js component architecture, HTML5, CSS3, and JavaScript.
- Integrated front-end views with PHP and MySQL back end through well-structured API calls, applying full-stack programming skills in a real client context.
- Collaborated in a team using Git for version control, participating in code reviews and delivering against client deadlines.
- Communicated directly with the client stakeholder to gather requirements and ship features reliably, gaining genuine product development experience before graduation.

Personal Portfolio Website

- Designed and developed a fully responsive portfolio using HTML5, CSS3, Sass, and JavaScript across the full software development lifecycle.
- Implemented scroll-triggered animations and responsive UI components using GSAP, delivering a polished user experience.
- Managed codebase through a structured Git workflow on GitHub, maintaining clean commit history and organized branching.
- Iterated continuously planning, shipping, and improving treating it as a live product development exercise.
